

Dear Members of Live Oak UU Fellowship, Alameda

The words are not enough to say Thank You! Take it as a prayer.

Going through the whole year is just overwhelming. We are so thankful that we had the chance to live it through and hopefully did something to create peace and love on this corner of our world. Culture and weather is different, but the deep desire to participate in creating a better world is essentially deep and common in us.

Thanks for doing your website, I do visit for inspiration.

Thanks for willing to donate for the playgrounds in my hometown in Nagykaroly. The donation you sent over a couple years ago was playing the role of catalizer in our community: the officialities realized how important children are. They deserve to have safe playgrounds... So thank you again for having this deep impact in making our children happier. Also making our environment more appreciated.

There was our joy to be with Jay during his visit in Transylvania. The new congregaion I serve is in Hungary, but only a few miles from Nagykaroly. The idea is to create a congregation, a larger community in this area, both sides of the border. Ask Jay, how close everything is, how doable distances are. It is nothing like California, I do remember it very well.

Christmas, Hannukka, the New Years Eve is coming. We are going to say a prayer in English for you as we light the candle for our advent wreat.

*May Blessing be around your community
Isten Áldjon- God Bless You*

Rev. Zsuzsanna Bartha
